

BALASUBRAMANIYAN

Full Stack Developer | Java & Web Technologies

- +91 8608498598
- abithabala@gmail.com
- Thanjavur , TN , INDIA.

PROFILE

Full Stack Developer with 10 years of experience building scalable web applications. Proficient in **Java, Spring Boot, HTML, CSS, Javascript, ReactJS** and RESTful APIs. Skilled in **MySQL, Neo4j (GraphDB)**, and full-stack application architecture. Experienced in Network Management Systems (**NMS**) with complete **FCAPS** functionality. Strong team player delivering high-quality, maintainable software in Agile environments.

WORK EXPERIENCE

2022 - PRESENT

NMSWorks Software Pvt Ltd , Chennai

Lead Engineer

- Designed inventory models for submarine systems and facility infrastructure using **Neo4j GraphDB**.
- Led a team of 8 developers to build an **IP Address Management (IPAM)** system for efficient network resource tracking.
- Contributed to core logic and UI design for smooth adoption of the React framework, improving integration and developer experience.
- Built a scalable **Asset Management System** leveraging Spring Boot, MySQL database, and customized Semantic UI components through a wrapper utility for enhanced frontend consistency.

2018 - 2022

NMSWorks Software Pvt Ltd , Chennai

Senior Software Engineer

- Led a 5-member team to develop a **Document Management System** in Java and jQuery, replicating key Office 365 features like editing, sharing, and version control.
- Built **Fault & Performance monitoring** UIs for Broadband IP Networks, mentoring 3 junior developers and delivering responsive dashboards.
- Created a reusable **Web Dashboard framework** with real-time updates and export features, standardized across multiple customer projects.

EDUCATION

2007 - 2011

ANNA UNIVERSITY, CHENNAI

- Bachelor of Computer Science and Engineering - (**70.2 %**)

1999 - 2002

GOVT POLYTECHNIC, ARANTHANGI

- Diploma in Electronics and Communication Engineering - (**82 %**)

TECHNICAL SKILLS

- Frontend Development**
HTML, CSS , Javascript
jQuery , Bootstrap, ReactJS
- Backend Development**
Java , JSP , Springboot , NodeJS , JPA
Hibernate , REST API , JSON , XML
- Database & Storage**
MySQL, Neo4j (GraphDB),
Apache Hadoop
- Messaging & Streaming**
KAFKA , SCDF
- Scripting**
Shell script , Perl
- Protocols**
SNMP , HTTP , WebSocket , FTP
- Monitoring & Visualization**
Grafana , Prometheus, Ganglia
MRTG
- Networking Utility & Tools**
net-snmp , Ping, Traceroute, Netstat ,
nmap, Curl , SSH , Telnet
- Web Servers**
Tomcat , Apache HTTPD
- Operating Systems**
Linux (Ubuntu , Redhat)

2015 - 2018

NMSWorks Software Pvt Ltd , Chennai

Software Engineer

- Independently developed **WebReport FW**, a configurable reporting framework in Java, enabling dynamic reports from databases and CSVs with custom UI filters.
- Resolved over 570 legacy issues, including several previously marked unsolvable, demonstrating strong debugging and problem-solving skills.
- Built full **Configuration, View, and Status UI** for a serial device, ensuring secure data handling and alignment with field deployment needs.

2008 - 2015

NMSWorks Software Pvt Ltd , Chennai

QA Engineer

- Conducted FMS testing integrating with ECI-NBI, TEJAS-NBI, and NEC-NBI systems for seamless fault management.
- Managed manual testing and bug tracking using Redmine and Bugzilla.
- Developed **Perl and Shell scripts** to automate fault notifications and monitor JVM performance, server load average, CPU, and memory usage, improving issue detection and system optimization.

LANGUAGES

- English
- Tamil

ACHIEVEMENTS

- Awarded **‘Employee of the Year’** for independently identifying and resolving core network issues (jitter and packet loss) causing delays in the Digital Time Information System for Chennai MTC, significantly improving system performance.
